Entrepreneurial learning,
towards a specific business goal

About Maritime communication

- ✓ Improve English language skills (speaking, understanding, pronunciation)
- ✓ Make it situational: video courses cargo & cargo handling, engine room communication
- ✓ Improve understanding between cultures in teams (course intercultural communication in the maritime world)

 ***“Measurable progress in 6 to 8 weeks in 80% of the cases”***

How does it work?

- ✓ Online and blended learning
- ✓ Building a learning cycle; continuous, personalised & adaptive
- ✓ Progress coaching towards measurable results
- ✓ Progress and results monitoring by HR, crewing, QHSE
- ✓ International network of certified teachers in Kaliningrad, Manila, Vladivostok for support

Crew members in international environments can

- ✓ Learn anywhere 24/7 using computer or mobile devices
- ✓ Start at the right level after being tested online and by Skype call
- ✓ Show measurable progress in 6 to 8 weeks in 80% of the cases
- ✓ Receive individual feedback
- ✓ Are coached to make progress, finish program and show results
